Important Updates on Covid-19 Testing, Treatment and Vaccinations. Rapid Covid-19 tests are still back ordered and grossly overpriced for some suppliers who have a few to sell. We do have the PCR tests that take 3-5 days to result. We are still seeing patients with significant Covid-19 symptoms, however testing requests have dropped to almost zero. We are hopeful that this is a sign that the Pandemic is ending. At least in our area, the threat seems to be greatly reduced. We are also aware that new guidelines are coming out for Providers regarding mask wearing, etc. We stand ready to update our patient flow policies as we get further updates. This is great news, as we are all ready to put Covid-19 behind us.

EKG Services. We are grateful to now provide in-house EKG services since emergency help can be hard to get in our area. EKGs are also required for routine pre-op clearance, and patients will appreciate getting those in-clinic and on short notice. Cardiac clearance for procedures will now require less travel and time delays.

Dental Hygiene students from NAU are scheduled for their supervised clinical time at Alchemy for the Spring Semester of 2022. Their services are now available at Alchemy one day a month. Next dental hygiene appointments are available for Thursday, March 31, 2022. Please contact the front desk to make an appointment. These are cash pay services \$65 for adults, \$45 for children under 14 yrs.

Massage Therapy. Massage Therapy appointments are unfortunately still on hold, pending LMT availability. Our beloved Bethany Brandt has let us know that she will not be returning to Ash Fork. We truly enjoyed working with Bethany, she has been a valuable addition to the Alchemy Team, and we wish her all the best! . We will keep you posted, as
